## HOW HOME CARE KEEPS YOUR LOVED ONE SAFE

When someone is experiencing health issues they often need extra help with the daily tasks that keep them comfortable in their living environment. When you're not feeling your best, activities that used to be easy such as taking a bath, or making a healthy meal, become more difficult. Struggling alone with these activities of daily living can be stressful and can increase the risk of accidents.

Homewatch CareGivers is there to provide your loved one with home care services to keep them safe and independent. We work closely with health care providers who are treating your loved one to provide a seamless care experience.

My siblings and I want to sincerely thank you for the care you provided for Mom. During that very difficult period your genuine concern and attention to detail was reassuring and eased our task. Your professionalism was enhanced by your obvious compassion for those needing assistance. We will all long remember those around us during that time period. Thanks again.
